11 Field hockey sticks
23 Junior hockey sticks
24 Indoor, beach & goalie
27 Lacrosse
28 Roller hockey
29 Shin guards
32 Hockey gloves
35 Helmets & accessories
39 Contact

Product visuals have been recreated from the original collection. Technical profiles and specifications follow the supplied catalog references.

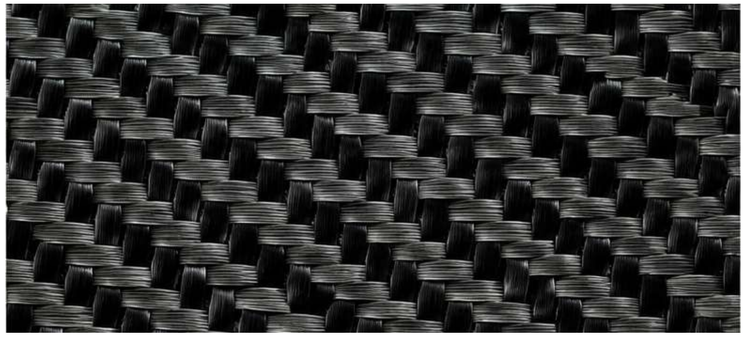

TECHNOLOGIES & R&D

MATERIAL EXPERTISE / PRODUCT DEVELOPMENT

NANO COMPOSITE

Nano-carbon structures help bond the resin and reinforcing fibers, supporting strength and stability.

CARBON FIBER

A high strength-to-weight ratio supports powerful, lightweight hockey stick construction.

FIBER GLASS

A tough reinforcement material used to develop durable composite hockey sticks.

R&D

Working with international brands, our R&D team assesses equipment performance, including power, feel, control and durability. These evaluations guide future product development and continuous improvement.

SPECIFICATIONS

CONSTRUCTION / FEEL / CONTROL | 01

Extreme Stiff Stick

Reinforced carbon construction with a resin formulation developed for stiffness and hitting power.

Stiffness / Hitting power

EVA Incorporated Hollow Stick

EVA within the hollow stick construction helps control lateral forces and reduce vibration.

Vibration control / Feel

Fabricated Carbon

Tightly woven, cross-linked carbon fibers increase surface area, reducing epoxy resin use while supporting shaft strength.

Strength / Power

Tri Core

A triple-chamber construction developed to combine structural strength with playing performance.

Triple-chamber construction

Skill Zone

Concave shaping on the playing side of the head supports ball control, drag flicking and aerial skills.

Close control / 3D skills

4-Core

A four-core construction designed to resist torsional movement and create a compact playing feel.

Torsional resistance / Power

SPECIFICATIONS

CONSTRUCTION / FEEL / CONTROL | 02

TCF / Texture Control Face

A textured playing surface increases the contact area between the stick and ball for feel and control.

Feel / Grip

RBH / Reinforced Back Hand

An EVA protective layer reinforces the backhand area to improve resistance to breakage.

Backhand reinforcement

SHP / Silicone Hand Protection

A silicone layer at the handle adds softness and supports hand protection during play.

Handle comfort / Protection

CVT / Counter Vibration Technology

Shock-absorbing handle inserts reduce vibration on impact and support playing feel and control.

Vibration reduction / Feel

SFR / Soft Feel Resin

The MT Techniques resin formulation is designed to improve touch and control while maintaining power.

Shock reduction / Touch

LACROSSE

COMPOSITE SHAFTS / MINI STICKS / STRUNG HEADS

COMPOSITE SHAFTS

Carbon and aramid fibers in varying ratios support medium and high-flex shaft options.

The range includes patterned shafts, mini sticks and strung heads.

SHAFT & HEAD REFERENCE

ROLLER HOCKEY

01 **Arrow**

02 **Harrow**

03 **Rose**

04 **Carbon**

COMPOSITE SHIN GUARDS

Carbon and Texto fiber construction.
Removable shields, top and bottom straps.
Sizes S, M, L.

HSG-70	Carbon fiber / turquoise
HSG-71	Carbon fiber / gold
HSG-65	Texto fiber

COMPOSITE & EVA

Glitter carbon fiber, painted glass fiber and EVA painted options. Sizes S, M, L.

HSG-50	Glitter carbon fiber / green
HSG-51	Glitter carbon fiber / red
HSG-55	Painted glass fiber
EVA-56	EVA painted / blue
EVA-57	EVA painted / ivory

PVC SHIN GUARDS

Fully covered PVC shields. Sizes S, M, L.

HSG-75	Blue / purple graphic
HSG-76	Green / blue graphic
HSG-77	Black
HSG-78	Blue
HSG-79	Pink
HSG-80	Red
HSG-81	Green

FULL-FINGER GLOVES

Full glove design for indoor and outdoor players. Leather palms and fingers, soft-fill cushioning. Sizes S, M, L.

HGL-100	Orange
HGL-105	Yellow
HGL-115	Blue / block padding
HGL-120	Blue / curved padding
HGL-110	Red

OPEN-FINGER GLOVES

Open-finger design, backhand protection, leather palms and fingers, soft-fill cushioning. Sizes S, M, L.

HGL-132	Orange / black, palm and back
HGL-133	Black
HGL-134	Magenta
HGL-135	Orange
HGL-536	Black / palm view

OPEN-PALM GLOVES

Open-palm design, ergonomic plastic shell for backhand protection. Sizes S, M, L.

HGL-137	Black / red trim
HGL-138	Black
HGL-139	Red
HGL-140	Cyan
HGL-141	Magenta

HOCKEY HELMETS

Four source models. No certification or size claims are supplied.

HG-370	Orange
HG-380	Ivory
HG-390	Red
HG-410	Black

MOUTH GUARDS & HANDLES

Nine mouth guard variants and three silicone gel handle colours.

MG-401	Black
MG-402	Ivory
MG-403	Translucent white
MG-404	Blue
MG-405	Green
MG-406	Pink
MG-407	Orange
MG-408	Yellow
MG-409	Black

HOCKEY GRIPS

All 27 packaged grip colour variants from the source are shown.

HGP-185	Shammy grips / 4 colours
HGP-190	Cushion grips / 10 colours
HGP-200	Chamois grips / 6 colours
HGP-195	Gel grips / 7 colours

HOCKEY BAGS

HB-200 / NOMAD

Vented and medium storage pockets, two lined/vented side pockets for wet gear, stick compartment for 8 sticks, two side mesh pockets, valuables pocket, 600 denier fabric, cushioned backpack straps, semi-structured spine and reinforced bottom.

HB-205 / BASIC

Holds 2 sticks, medium zipper pocket and small valuables pouch.

THANK YOU!

FOR YOUR ATTENTION
